

Minnesota Chapter

Scholarship for Advanced Applications and Research

The mission of Geospatial Information & Technology Association (GITA) is to provide excellence in education and information exchange on geospatial information and technology in telecommunications, infrastructure and utility applications worldwide.

GITA's Minnesota Chapter has established a scholarship award for 2009-2010. This award is open to individual students who are currently enrolled in an undergraduate or graduate program in geospatial studies (e.g., GIS, Geography with GIS concentration, or similar) at a Minnesota University or College. This is a one-time award based on a competitive process for best application or project utilizing geospatial technologies. Applicants are required to submit a project summary and **one** letter of recommendation.

Eligibility and application details:

- **Applications are due no later than December 1, 2009.**
- **The top candidates will be invited to provide a live presentation/ demonstration before a panel of judges assembled by GITA Minnesota Chapter Board.**
- **One student will be awarded a Grand Prize of at least \$1000 in cash. Additional prizes of up to \$750 each will also be awarded to students applying for the scholarships.**
- **All participants selected for presentations will receive a plaque for outstanding excellence in geospatial technologies and a free one-year GITA membership.**
- **Projects must have been completed during the previous or current school calendar year.**

Please send your application, project summary and letter of recommendation to:
