

The program for our 9th [Annual Fall Conference](#) – October 6, 7 in Boise, ID is set!

We have opted for a one-day speaker event this year. Papers will be presented on Monday, followed by our annual business meeting on Tuesday morning. There will be golf and other recreational opportunities available Tuesday. Please join us in Boise to network with your peers and to enjoy this (partial) list of speakers:

Web-based Incident Response Manager

Chris Bellusci, GeoEngineers, Bend OR

Infrastructure Management for Decision Making and Operational Awareness using GIS/LiDAR/GPS

Hall Guttormsen, Vice President, IDS

Enterprise Data Management

Optimizing Business Processes in Utilities for Data Quality

Geoff Zeiss, Director of Technology, Autodesk

Finding, Sharing and Using Distributed Data -- Northwest Environmental Data-Network Portal Development

Thomas E. Pansky, Energy Resource Specialist
Bonneville Power Administration

Data Maintenance- “You are not done yet?”

David F. Ridderikhoff
Director, Geospatial Solutions, Avineon, Inc

Idaho Power - Case Study

Jan Bryant, Idaho Power

Join us in Boise for this event where we have gathered this exciting array of speakers. This is a great opportunity for networking among your geospatial industry peers in a new, relaxed setting.
